About This Component

Each year, the Fraternity hosts a series of programs to assist members in learning more about their role, themselves and the qualities of a leader. Taking advantage of these opportunities is the best way to get the full value of the Delta Sigma Phi experience.

Best Practices

- Use opportunities like the Leadership Institute and RLAs to provide more value to members who may not hold a position within the chapter.

- Utilize online programming through The LAMP to provide more members with more opportunities to grow.
