About This Component

Our ultimate aim is to build better men. This component recognizes those chapters that have committed to building better men by offering programs geared toward the personal development of their membership.

Best Practices

- Choose programs that build off of one another if possible. For example, it may be beneficial to have a presenter walk through a Strengths Finder assessment with a chapter and a second presenter walk the chapter through applying one's strengths to his actions or positions.
- Be creative in the programs you choose to utilize. If a speaker is coming to campus, request a half hour with him or her after a session. Ask an art professor to walk the chapter or groups of chapter members through a gallery or museum and educate the men on the value and history of the exhibit.
